servicing up cultural food trends

While hot pots have been an essential part of the Chinese dining culture for centuries, this unique concept has become a fast-growing restaurant food trend. The large hot pot is divided into 2-quart sections, allowing for two different broths to be simmering in the same vessel, while the small 1.6 quart hot pot is the perfect size for a small tabletop. Both sizes can be used with optional heat element bases or on induction cooking surfaces for the operators convenience.

care & use of hollowick lamps

globes

Keep Hollowick globes sparkling clean by regularly handwashing them with warm water and mild detergent. Note: Commercial dishwashing detergents may spot or dull fired-on colors.

bases/lamps

Hollowick lamp bases are coated with finishes that protect and enhance the beauty of the lamps. Metal and wood bases should be cleaned with a spray furniture wax. This leaves a protective shine and allows for easy cleaning in the future. Resin and glass bases should be cleaned with a damp cloth and mild detergent.

note:

Do NOT put any Hollowick lamp, base or globe in a dishwasher.

breakage due to thermal shock

Breakage and cracking are commonly experienced when traditional wax tealights and votives are used in glass table lamps; especially with thicker glass lamps and globes. For this reason, Hollowick Lamps are not recommended for use with wax tealights and votives. The use of the proper Hollowick Liquid Candle will resolve this issue.

candlelight without the melted wax mess

Liquid candles from Hollowick are the ideal choice for lighting up the tabletop. These liquid fuel cells burn cleaner than solid wax candles and are disposable, making clean up quick and easy without the melted wax mess. Available in a variety of sizes, a strategically chosen liquid candle will sit low inside a table lamp in order to illuminate the colors or beauty of the lamp itself. With a burn time that is twice that of a standard tealight, Liquid Candles from Hollowick are staple for those restaurants & hotels looking for the elegance of live flame.

proper use of liquid candles

In order to illuminate the colors and beauty of a lamp, select a liquid candle that sits low within the lamp, and does not touch the sides.
