

# PRODUCE

## COLLECTION

 **DISPLAYS**  
**Cayuga**

## DEPARTMENT: PRODUCE

**The produce department is the single greatest determiner of customer loyalty. More than just showcasing fresh product, the produce area needs to have a fresh overall energy too, with plentiful displays and great range of product.**

**Don't let the product - rich center areas or your store go under - utilized. Self-contained plug and play refrigerated displays provide the flexibility to quickly add appealing display options creating visible interest and maximum interest.**

Cayuga Displays has an extensive line of display possibilities to highlight the produce itself, as well as to cross-merchandise related products, like dried fruits, sauces and nuts. We offer great options for getting more refrigeration on your floor in order to build your customers' shopping experiences and get more product noticed.

And when you work with Cayuga Displays, you can always be confident we'll help you to select the right product and options, so that you have the food presentation that is certain to elevate your customers' experience and enhance your brand - beautifully.

*"Longos is pleased to support Cayuga Displays. Your team's quick service/turnaround for projects has helped us with our millwork for bakery and floral in past projects. More recently your team has come up with some cost effective refrigeration solutions for our bakery and produce."*

Paul Collette,  
Longo's Support Center  
Project Manager Real Estate  
and Construction

*"Cayuga has always provided us with sensible and reliable options and have always exceeded our expectations in customer service."*

Neil Forth,  
Neelands Refrigeration  
Sales

# ISLAND PRODUCE TABLES

11' 11 1/2"L Island Tables shown  
(refer to pages 15 & 16)

*Finish: Select Cherry*

*Finish: Natural Maple*

## Applications

- Island produce tables are designed to easily line up into run as well as provide a seamless look
- Units are easily connected with furniture supplied bolts. Center units come with the 16" pedestal attached to the unit while the 24" pedestal is shipped loose and requires fastenning upon assemble of island (fasteners supplied)
- Center divider
- Data strip, ABS bumper and levelers

# TABLE WITH OPEN BASE STORAGE

Clear finish shown

Danish Walnut finish shown. Other finishes available - see chart.

MODEL	DESCRIPTION	LENGTH	DEPTH	HEIGHT
TBFD-021-02B	Table w/ Open Base Storage	72"	33 1/2"	45 1/2"

## FEATURES:

- Birch/maple plywood and solid maple construction
- Base merchandising with adjustable shelf on shelf pins
- Data strip and product stops
- Levelers
- 1 1/2" ABS bumper
- Designed to work with TBIE-069-01B

## OPTIONS:

- Refer to Wood Stains Finishes

Note: Information and specifications may change due to engineering improvements.

## OPTIONAL 16" & 24" PEDESTALS

### ACRI-061-02B

16" Pedestal (shipped fastened to top ledge)

### ACRI-061-01A

24" Pedestal (shipped loose)  
With locator holes, Allen key, and furniture bolts, assembly is simple. No other equipment is needed.)

TBFD-021-02B

# END CAP TABLE WITH OPEN BASE STORAGE

Removable  
Product Dividers

*Iron Mountain finish  
shown. Other finishes  
available - see chart.*

MODEL	DESCRIPTION	LENGTH	DEPTH	HEIGHT
TBIE-069-01B	End Cap Table w/ Open Base Storage	72"	36 ¼"	45 ½"

## FEATURES:

- Birch/maple plywood and solid maple construction
- Base merchandising with adjustable shelf on shelf pins
- Data strip and product stops
- Levelers
- 1 ½" ABS bumper
- Designed to work with TBFD-021-02B

## OPTIONS:

- Refer to Wood Stains Finishes

Note: Information and specifications may change due to engineering improvements.

FGD-57-42	59 3/8"
FGD-76-42	78 1/2"
FGD-96-42	97 5/8"

## FEATURES:

- Brushed Stainless steel internal cabinet construction
- Many exterior natural wood finishes available
- 3 interior finish options: textured powdercoat black, white and brushed stainless steel
- Other custom options are offered. Refer to the options schedule on the next page
- A LED light strip is mounted on the top ledge of the display area. Various light intensities/spectrums are available
- Designed to maintain the critical temperature of the products within the display at a range of 38-41°F (3-5°C) with an ambient atmosphere of 75°F (24°C)/55% humidity
- ETL electrical certification and NSF-7 standards
- New R-513A (non-ozone depleting, low global warming potential) refrigerant used in the self-contained refrigeration system
- The refrigeration system is designed to pull fresh air from the front base of the display and vent through an integrated rear vent. The unique rear vent allows the display to be backed up against a wall or other displays/obstructions
- Remote refrigeration available. Contact Cayuga Displays for details

# CRITICAL TEMPERATURE SINGLE POD MOBILE MERCHANDISER

 REFRIGERATED

3' X 3' & 4' X 4' SINGLE POD SIZES, CREATE A UNIQUE REFRIGERATED MOBILE DISPLAY

*Shown with  
natural wood  
panels*

*Shown with black  
laminate panels*

MODEL	DÉCOR PANELS	LENGTH	WIDTH
FGB3-0132-S	D,E	36"	36"
FGB4-0132-S	D,E	48"	48"

## FEATURES:

- Display fresh juices, cut fruits, yogurts, deli meats, cheeses, bakery etc.
- Designed to maintain critical product temperature at 38-41°F with a unique 9" high merchandising area
- A mobile display with self-contained refrigeration that plugs into a 115V dedicated circuit and R-513A refrigerant (non-ozone depleting, low-global warming potential)
- A unique attachment system designed to provide the flexibility to incorporate a collection of standard exterior décor panels (Panel E option shown) or customized panels can be created to match your decor or brand image
- The standard décor panels are constructed of natural wood veneers with a variety of stain colours available
- A wide range of laminates, metals and wood finishes to choose from for a customized look
- Protective corners are applied to prevent damage to the décor panels
- Removable black "Ultra-Durable Texture™" powder coated flat base inlays
- Heavy duty casters
- Fresh Go Bins™ are also available in 2 pod configurations. Specification sheet available

## SUGGESTED APPLICATIONS:

Bakery

Produce

Deli

# TWO-LEVEL SELF-SERVICE DISPLAY - 49"H

 REFRIGERATED

Custom options available, refer to options schedule on next page.

MODEL	LENGTH
MRO-24-49	26 1/4"
MRO-38-49	40 1/4"
MRO-48-49	49 7/8"
MRO-57-49	59 3/8"
MRO-76-49	78 1/2"
MRO-96-49	97 5/8"

## FEATURES:

- Brushed Stainless steel internal cabinet construction
- Many exterior finish options available: powdercoat paint, brushed stainless steel, laminates and natural wood finishes
- 3 interior finish options: textured powdercoat black, white and brushed stainless steel
- Other custom options are offered. Refer to the options schedule on the next page
- A LED light strip is mounted on the top ledge of the display area. Various light intensities/spectrums are available
- 1-12" adjustable metal shelf with integrated front product stop and LED light strip mounted to the bottom of the shelf
- Designed to maintain the critical temperature of the products within the display at a range of 38-41°F (3-5°C) with an ambient atmosphere of 75°F (24°C)/55% humidity
- ETL electrical certification and NSF-7 standards
- New R-513A (non-ozone depleting, low global warming potential) refrigerant used in the self-contained refrigeration system
- The refrigeration system is designed to pull fresh air from the front base of the display and vent through an integrated rear vent. The unique rear vent allows the display to be backed up against a wall or other displays/obstructions
- Remote refrigeration available. Contact Cayuga Displays for detail

# ANTI-BRUISE FOAM MATTING - ROLL

MODEL	DESCRIPTION	LENGTH	DEPTH	HEIGHT
CCA-100	Anti-Bruise Foam Matting - Roll	200'	60"	3/8"

## FEATURES:

- 3/8" thick foam matting
- 200' roll

Note: Information and specifications may change due to engineering improvements.

# CLAMP ON SIGN FRAME

Clear finish shown

MODEL	DESCRIPTION	LENGTH	DEPTH	HEIGHT
ACSN-002-01B	Clamp On Sign Frame	36"	1 ½"	15 ¼"

## FEATURES:

- Solid maple construction
- Clamping mechanism to attach sign to rear tilting deck of table
- Sign frame is able to tilt allowing frame to sit vertical with floor
- 3 track Washington Poster
- Works with both 3' & 4' tilt-top table

## OPTIONS:

- Refer to Wood Stains Finishes

Note: Information and specifications may change due to engineering improvements.

# THINGS TO CONSIDER

Showcases are designed to display your refrigerated products at 38-41°F (4-5°C). Showcases are designed to perform in environments of maximum 75°F (23°C) and 55% relative humidity.

**\*\*NOTE: FOR YOUR SHOWCASE TO FUNCTION AT PEAK EFFICIENCY YOU WILL NEED PROPER CLIMATE CONTROL AND AIR CIRCULATION\*\***

You need to consider the following when selecting a showcase and placing it in your store environment:

## 1 Consider nearby doorways and vestibules

A location near a doorway will negatively affect the airflow and holding temperature of both open and closed showcases.

## 2 Consider nearby windows

Direct sunlight will negatively affect the holding temperature of both open and closed showcases.

## 3 Consider nearby vent sources, hoods, cooking equipment and fans

HVAC ceiling vents, exhaust hoods, cooking equipment (steam heat) and ceiling fans will negatively affect the airflow of open showcases and will create condensation on the showcases if not properly managed.

## 4 Ensure your display is level and plumb

Ensure your showcase is plumb and level to allow for proper drainage of condensation water.

**Please note:** These are critical points to ensure the best results for your equipment and efficient space – and the best return on your investment!

# Regular Maintenance and Cleaning

Your showcase will work at its peak performance with regular maintenance. Refer to the Owner's Manual for maintenance and cleaning instructions.

To access the Owner's manual either visit us at [cayugadisplays.com/resources/manuals](https://cayugadisplays.com/resources/manuals) or access the QR code located on the electrical box of your case. You can also check out our online maintenance video.

Watch our maintenance videos at <https://cayugadisplays.com/resources/videos>

## 5 Leave appropriate space behind display

A 6" space is required behind any showcase that is against a wall or has a rear obstruction to allow for proper air flow around your showcase.

## 6 Clean your condenser grill and pre-filter

Use the included brush to regularly wipe away dust. Too much dust will not allow the refrigeration to work properly and could result in **expensive** damage.

**\*\*Refer to Owner's Manual for additional case cleaning checklist\*\***

## 7 ONLY PRE-CHILLED product in case

Refrigerated displays are designed to **KEEP COLD PRODUCT COLD** - they are not designed to bring warm products down to a cold temperature. For food safety it is always imperative that warm product be properly chilled (using a blast chiller or cold room) prior to storing in the refrigerated display case.

## 8 Noise

Self-contained cases have compressors, motors and fans and these will make noise. Keeping your showcase serviced and clean will help keep the noise level under control, improve lifespan, and maintain efficiency.

## 9 Condensation on closed and open cases

Condensation is caused by warm, moist air coming into contact with cool surfaces. If the case environment is not maintained below 75°F/23°C and 55% relative humidity, condensation may occur.

# TIPS TO COMBAT CONDENSATION

Showcases are designed to display your refrigerated products at 38-41°F (4-5°C). Showcases are designed to perform efficiently correctly when placed in environmental conditions of maximum 75°F (23°C) and 55% relative humidity.

**\*\*NOTE: FOR YOUR SHOWCASE TO FUNCTION AT PEAK EFFICIENCY YOU WILL NEED PROPER CLIMATE CONTROL AND AIR CIRCULATION\*\***

## 1 Condensation on closed and open cases

Condensation is caused by warm, moist air coming into contact with cool surfaces. If the case environment is not maintained below 75°F/23°C and 55% relative humidity, condensation may occur.

## 2 Consider nearby doorways and vestibules

A location near a doorway will affect the humidity that encounters your showcase which may cause condensation to occur.

- Relocate showcase away from doorways
- An air-conditioned vestibule will help to mitigate condensation

## 3 Consider nearby vent sources, hoods, cooking equipment and fans

HVAC ceiling vents, exhaust hoods, cooking equipment (steam heat) and ceiling fans will affect the airflow of open showcases and will create condensation on the showcases if not properly managed.

- Maintain environment below 75°F/23°C and 55% relative humidity
- Turn on air-conditioner and dehumidifier

**Please note:** These are critical points to ensure the best results for your equipment and efficient space – and the best return on your investment!

## Regular Maintenance and Cleaning

Your showcase will work at its peak performance with regular maintenance. Refer to the Owner's Manual for maintenance and cleaning instructions.

To access the Owner's manual either visit us at [cayugadisplays.com/resources/manuals](https://cayugadisplays.com/resources/manuals) or access the QR code located on the electrical box of your case. You can also check out our online maintenance video.

Watch our maintenance videos at <https://cayugadisplays.com/resources/videos>

### 4 Ambient humidity and temperature

Maintain environmental conditions during working and non-working store hours.

- Consider recirculating your conditioned air instead of bringing in fresh air from outside
- Turn on air-conditioner and dehumidifier
- Keep the A/C on even when it's cool outside as well as overnight
- Schedule regular maintenance for both A/C and dehumidifier as it frees parts and device of dirt, dust and other pollutants that can affect performance

### 5 Small store footprint

If your space is small, consider adding a dehumidifier.

- Install a dehumidifier with a floor drain to ensure humidity levels remain consistent
- Regular maintenance for dehumidifier is recommended (refer to manufacturers specifications)

### 6 Air circulation

Ceiling fans help to mix dry air near the ceiling with cold moist air at ground level.

- Consider recirculating your conditioned air instead of bringing in fresh air from outside

### 7 Hot bars with steam wells

Both Soup wells and food bars that rely on steam to heat products produce steam that will raise the moisture levels

- Use dry heat wells
- Turn on dehumidifier to maintain 55% relative humidity

## Formica® Laminate

Formica Group provides surfaces that fuse beautiful design with purposeful functionality. Formica® Products provide versatile surfacing solutions that are inspired by and adapt to the way people live, work and play.

Formica® Brand Laminate offers a broader range of looks than ever before. Transform spaces with our modern laminates that are as beautiful as they are durable. Mix and match solids, patterns and finishes.

### Product Features:

- Postforming
- Durable and Wear-resistant
- Horizontal and Vertical
- Impact Resistant

## Formica® EliteForm

Our innovative Formica® EliteForm surfacing technology redefines the performance attributes of high pressure laminate to deliver a more durable laminate for today's market. Formica® Laminate with EliteForm features superior scratch resistance over other laminate brands, the ability to postform to a smaller radius with better blister resistance, and more durable, long-lasting surfaces, including the Gloss texture in horizontal applications. EliteForm comes standard on all Formica® Laminates, at no additional cost.

Formica Canada Inc. is located in St-jean-sur-Richelieu, Quebec, and employs more than 250 people.

Formica Canada is proud to be part of the Well Made Here local purchasing program.

As the inventor of high pressure laminate, Formica Corporation has always worked to provide innovative, high quality products. Efficient use of resources is at our core, and we have taken many steps to improve our environmental footprint - from reusing the water in our presses to incorporating recycled materials into our surfacing products. We are committed to a long-term planning horizon that includes becoming an industry-leading environmental steward.

# HOW TO ORDER

We'll help you select the right case for your requirements.  
The steps below will help us to serve you best.

- 1 Choose the showcase that meets your display requirements from the product specification sheets.
- 2 Review the options table found on the specification sheet and make your selections of the options provided.
- 3 Select from the large pallet of colours found on the last five pages of the brochure, or choose a stainless steel, standard black or white for the exterior finish of your showcase.
- 4 E-mail your request for a quote to your Cayuga sales representative or [sales@cayugadisplays.com](mailto:sales@cayugadisplays.com) and we will quickly respond to your request. Please include your full contact information in case we have any questions.
